Public Sandbox Trust Infrastructure Roundtable

23.04.2024

Collaborate
and
learn from each other

Agenda

- Public Beta
- Q & A
- Next steps

Public beta

As already announced, we plan to publish a public beta in 2025.

The tech stack of public beta will be the same as for the trust infrastructure for the productive E-ID and the ecosystem.

One of the goals of public beta is, that all participants can test their use cases on the trust infrastructure. We will also deliver a public beta wallet.

We want to learn from your side, find out what your wishes, requirements, thoughts etc. are so that we can create a useful environment.

Q&A Session

No questions today

Next Steps

- Participation Meeting 2. May 2024.
- Next Public Sandbox Trust Infrastructure Roundtable in June 2024.
